The Superfund Amendments and Reauthorization Act (SARA) of 1986 authorizes the U.S. Environmental Protection Agency (EPA) to provide **Technical Assistance Grants (TAGs)** to qualified citizens groups who are affected or potentially affected by a federal Superfund hazardous waste site.

A TAG provides up to \$50,000 with a minimum 35 percent match by the selected group. This grant is to be used in obtaining professional, technical assistance to interpret EPA Superfund data and to enhance public participation in the Superfund process.

EPA Region 5 is accepting applications for TAGs from concerned citizens groups. The TAG application process is initiated upon receipt of a letter of intent from qualified groups. Local groups interested in the same Superfund site are encouraged to consolidate efforts as only one grant per site will be awarded.

Groups interested in a TAG for the U.S. EPA Skinner Landfill site should direct a letter of intent indicating an interest in applying for TAG to:

Jennifer Hall
TAG Program Coordinator
U.S. EPA
Office of Public Affairs
230 South Dearborn St.
Chicago, IL 60604
(312) 886-4359

Interested groups must file a letter of intent by July 22, 1988.
